

# MEET2WIN

European **Oncology** Partnering Convention

2023

May 11th

Opening  
9.30 / 9.40

01 Round table #1 : Major future trends in oncology  
**9.40 / 10.30**

- Focus on personalized cancer prevention: Olivier Caron (Gustave Roussy)
- New cancer immunotherapy strategies: Eric Vivier (Innate Pharma)
- Tumor avatars to fuel therapeutic arsenal: Gustave Ronteix (ORAKL)
- The perspectives opened by artificial intelligence: Caroline Hoffmann (Owkin)

02 Round table #2 : Towards digitalized medicine for all  
**10.30 / 11.10**

- Digitalisation of care: Iris Pujade (Synapse Medicine)
- Exchange of medical data: Franck Le Ouay (Lifen)
- Hosting and secure sharing of health data : Sophie Beaupère (Unicancer)
- Fighting digital disconnection in health: Anthony Colombani (Fondation d'entreprises Bouygues Telecom)

03 QUICK PITCH session (10 pitches x 5mn innovative projects) - public and MATWIN board vote  
**11.30 / 12.30**

Lunch  
12.30 / 14.00

04 Thematic workshops (30 mn)  
**14.00 / 17.30**

- 14.00-14.30 : PASREL
- 14.45-15.15 : INOVOTION
- 15.30-16.00 : ZANTERIS
- 16.15-16.45 : MImAbs
- 17.00-17.30 : SCIENCEONE

04 Boehringer Ingelheim  
Office Hours  
**14.00 / 17.30**

04 B2B meetings(30 mn)  
**13.30 / 18.00**

05 Welcome address : Alain Rousset, President of the Regional Council of Nouvelle Aquitaine  
**18.00 / 18.05**

06 Round table #3 : How getting France more attractive for oncology innovation?  
**18.05 / 19.00**

- Paris Saclay Cancer Cluster - a global ambition for French oncology: Eric Vivier (PSCC)
- What expectations for biotechs? Franck Mouthon (France Biotech)
- Ensure a continuum in the financing of biotech in Europe: Antoine Papiernik (Sofinnova)
- Health Innovation Plan 2030- a strong political support: Lise Alter (Agence Innovation Santé)

07 Testimonial: Cap Optimist, a sporting challenge at the heart of the cancer therapy  
**19.00 / 19.20**

- Stephanie Barneix : world champion in inshore lifesaving, waterwoman, President Hope Team East
- Julien Bourrelier : Dr. Sport Sciences, associate researcher INSERM U1093, Director Hope Team East

08 Awards ceremony for QUICK PITCH, OUI & MATWIN  
**19.20 / 19.30**

09 **20.00 / 23.00**  
Cocktail party

# MEET2WIN

European **Oncology** Partnering Convention

2023

May 12th...

01

• MEET my Pharma : presentation of the R&D strategy of MSD  
Khatereh AHMADI, Head of Search & Evaluation, European BD&L team

**9.00 / 9.30**

01

Boehringer Ingelheim  
Office Hours

**9.00 / 12.30**

• MEET my Pharma : Introduction to Takeda's Oncology Pipeline aiming at harnessing the untapped power of the innate immune system  
Philippe JACQUOT, Country Manager Oncology Takeda France

**9.45 / 10.15**

02

• MEET my Investor : presentation of the investment and partnering approach of Boehringer Ingelheim

Emilio ERAZO-FISCHER, Director Global Bus Dev & Licensing Oncology, Boehringer Ingelheim

**10.30 / 11.00**

B2B meetings (30 mn)

**9.00 / 17.00**

Lunch  
**12.30 / 14.00**

03

B2B meetings (30 mn)

**13.30 / 17.00**

Meet your future partners, providers, employees...

## An event organized by

# WORKSHOPS.

WORKSHOP 3 : 15.30 - 16.00

Mike Faily

## Current operational Outsourcing Challenges for Launching a Clinical Trial in 2023

During this panel, we will discuss the impact of world events on companies seeking to initiate new clinical trials in 2023. Exploring lessons around the challenges of dealing with multiple moving pieces, forward planning, modeling, and allocation of resources, we will understand innovative ways for Biotech organizations to adapt in times of uncertainty.

WORKSHOP 1 : 14.00 - 14.30

Ali Ait-Ikhlef

Charles Truillet

## In vivo imaging from preclinical POC to drug development in patients

PASREL-imagerie, a consortium of academic and clinical centers, characterize and validate drugs and biomarkers using translational in vivo imaging expertise and platforms (MRI, PET, ultrasound and hybrid imaging). During the workshop, TEP imaging benefits will be reviewed as an innovative approach to longitudinally and quantitatively monitor the efficacy, biodistribution, dynamics and toxicity/off-target of your antitumor compounds.

WORKSHOP 2 : 14.45 - 15.15

Jean Viallet

## Use of the in vivo chicken egg assay for the high-value identification of drug candidates in oncology and immuno-oncology

- How to use INOVOTION's technology to open new perspectives for in vivo screening in oncology and immuno-oncology
- The chicken embryo model bridges the gap between in vitro studies and in vivo mouse models and offers several advantages for cancer drug discovery
- Why is the chicken embryo a complete physiological model, closer to the patient?

WHICH MOLECULE WILL STAND OUT

WORKSHOP 4 : 16.15 - 16.45

Manuel Pelé

## Accelerating antibody discovery for difficult targets

Despite demonstrated efficacy in antibody generation, conventional immunization strategies and subsequent hybridoma generation often face strong limitations when dealing with complex targets such as GPCRs or tetraspanins. Innovative approaches combining RNA immunization and single cell screening offer unique opportunities to dramatically accelerate the discovery of antibodies against such challenging targets.

WORKSHOP 5 : 17.00 - 17.30

Lionel Guerin

Chrisitan Schoen

## Discover ScienceLeadR : Uniting individual health expertise for collective success and patient benefit

How do you effectively promote health experts? How to identify the right expert for the right project? How to build the best team and optimize your asset development plan? Join the ScienceLeadR workshop to learn about the platform.

Solutions to Amplify Health Innovation
